- Enter a phone number through the keypad in the home screen.

- Press ⌐, and choose a number from **Call Log**.

- Select a number in **Contacts**.

2 Press ⌐ to dial out.

3 Press ⌐⌐ to end the call.

Note To delete a wrong number, press ⌐⌐ once to delete the digit to the left of the cursor.

Answering a voice call

You can set the answer mode. Select **Settings** > **Call settings** > **Answer mode**, and then select **Open flip**, **Any key** or **Send key**.

1 Answer a call:

- Open flip: You can answer a call when you open the flip.

- Any key: Open the flip, press any key except $\boxed{}$ and $\boxed{}$ to answer a call.

- Send key: Open the flip, press $\boxed{}$ to answer a call.

- If the headset is plugged in, press the headset key to answer a call.

2 End a call:

- Close the flip or press $\boxed{}$ to end a call.

- If the headset is plugged in, press the headset key to end a call.

You can set the auto answer mode to **select Settings** > **Call settings** > **Auto answer**.

- Immediate answer: Your mobile phone answers the call after 5 seconds alerting automatically.

- Message: Your mobile phone sends the predefined SMS to the calling party after 20 seconds alerting.

- Recorded message: The mobile phone plays the 10 seconds record after 20 seconds alerting, and then records the calling party's message.

My number

Your mobile phone automatically displays your number from the EM chip.

1 Select **Settings** > **Call settings** > **My number**.

2 Into the My number screen, press $\boxed{\hat{\circ}}$ to view the selected number.
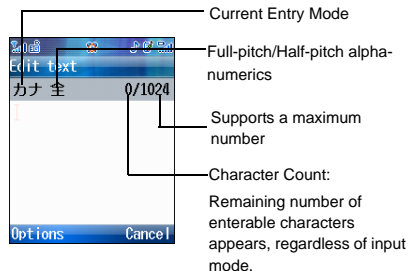

Turn meeting profile on

When meeting profile is active all mobile phone sounds are muted and mobile phone vibrates for incoming calls.

1 Press and hold `#` to the meeting prifile from the current profile.
